

THERMISTOR SYMBOLS FOR MIDSAS 100

THERMISTOR MOUNTING

M107, M108, M109, M110 - STC POSITIONING  
M107, M108, M109, M110 - STC POSITIONING

THERMISTOR MOUNTING

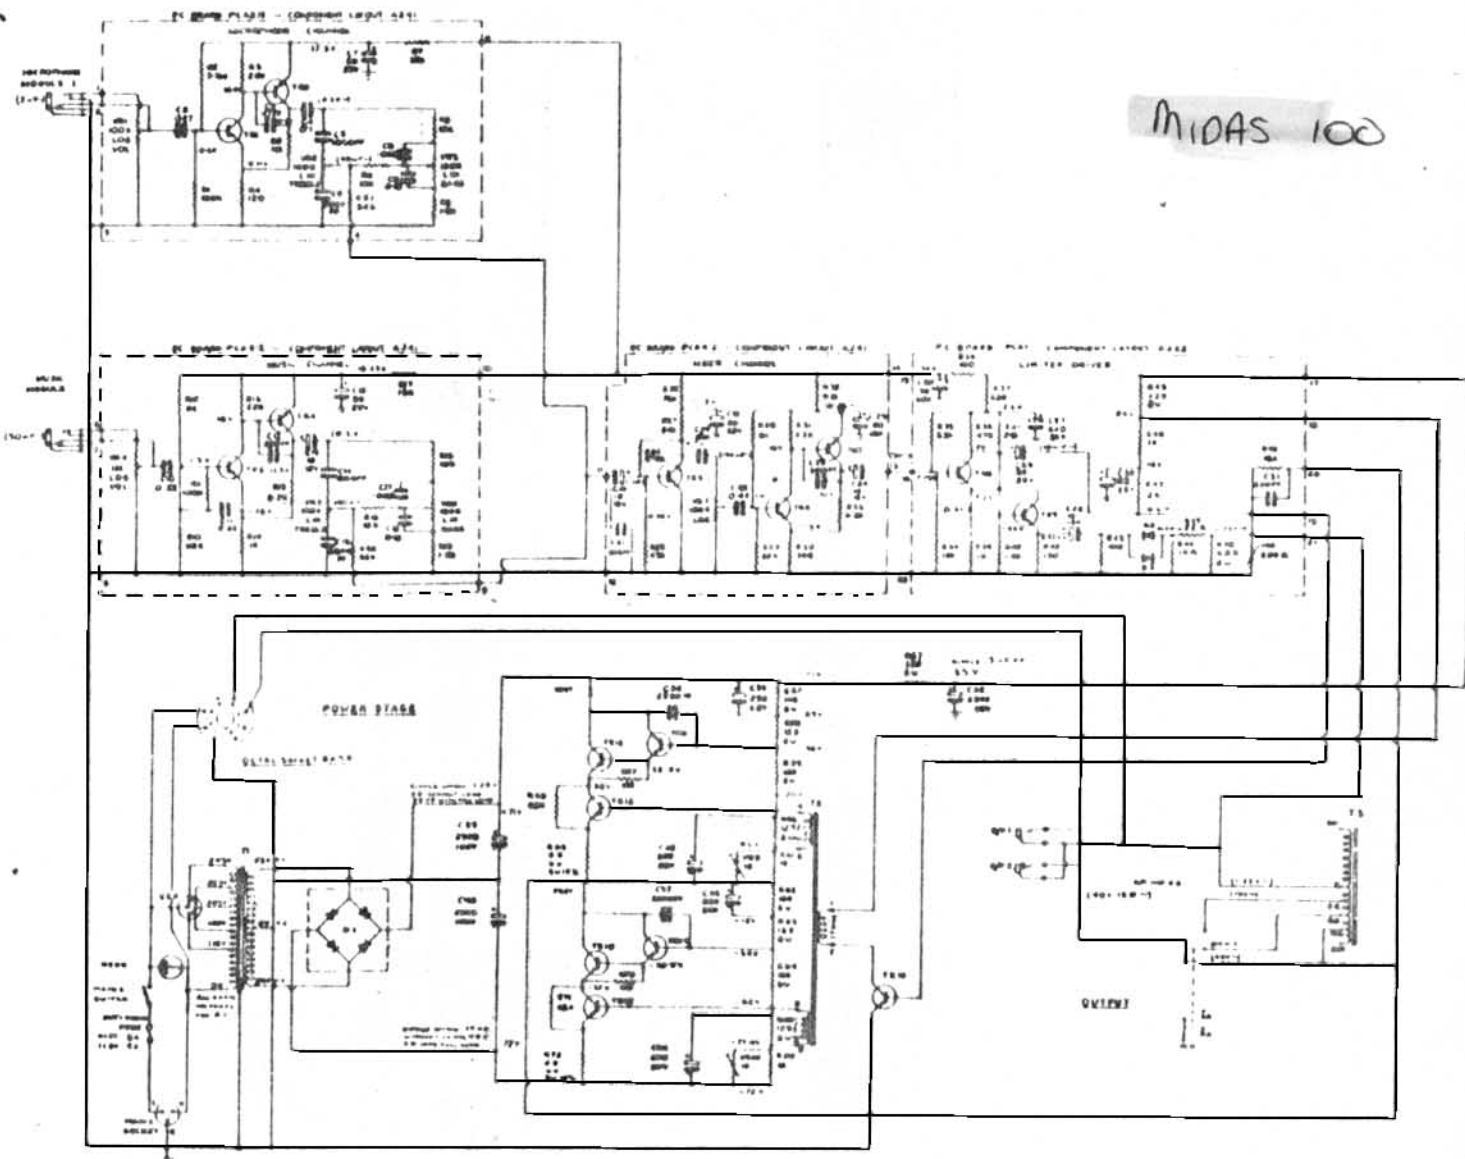

M107, M108, M109, M110 - STC POSITIONING  
M107, M108, M109, M110 - STC POSITIONINGM107, M108, M109, M110 - STC POSITIONING  
M107, M108, M109, M110 - STC POSITIONING

M107, M108, M109, M110 - STC POSITIONING

M107, M108, M109, M110 - STC POSITIONING

MIDSAS 100

NOTE: Voltage values shown across various components are 1.5V unless otherwise indicated. Values shown are approximate and subject to variation as an AV08 meter  
 is used. Values in brackets are (typical) values measured at 1.5V using 100 ohm resistor with 1.5V.  
 Electrical components in circuit diagram are not to be interpreted as physical components or physical values.  
 All dimensions are in millimeters unless otherwise indicated.
